

# New Intercity Fleet

## Eveleigh Facility Project

### PROJECT COMPLETION

The NSW Government is delivering a New Intercity Fleet to replace the trains carrying customers between Sydney and the Central Coast, Newcastle, the Blue Mountains and the South Coast.

The upgraded Eveleigh maintenance facility can now be used for testing, commissioning, stabling and maintenance of the New Intercity Fleet.

### Finishing our work at Eveleigh

The upgrades and modifications at Eveleigh were completed in **June 2019**. Minor finishing activities will continue in July, however these activities are not expected to be noisy.

### Achievements

Upgrades to the facility will allow the servicing and maintenance of the New Intercity Fleet once it is in service. These upgrades included extensions to tracks and sidings, and supporting infrastructure including signals, walkways, fencing, lighting, underground assets and overhead wiring. The additional repairs carried out have extended the life of the buildings at the facility.

Our team worked closely with Sydney Trains to ensure the safe and efficient passing of trains throughout the facility, coordinating all activities with train movements to avoid disruptions.

Over 100 metres of new track installed

60 cubic-metres of concrete poured for new retaining walls

Five train buffer stops replaced

150 metres of new walkways constructed

During the project, our team took part in local community events, such as helping to plant trees and build the “Elliptical Garden” at Erskineville Public School, where students now enjoy larger play areas with outdoor chalkboards for drawing, a giant chess board and new green spaces and gardens in their school.

## Thank you for your patience

This project has been critical to ensure that the Eveleigh Facility meets the needs of the New Intercity Fleet. We appreciate that construction can be disruptive, and we thank you for your patience and understanding during this important work.

## Contact us

If you would like to speak with the project team, please contact us using the details provided below.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
