

Transport Access Program Banksia Station Upgrade Have your say

Artist's impression of the proposed Banksia Station Upgrade, subject to change during detailed design

The NSW Government is improving accessibility at Banksia Station

Planning is underway to improve accessibility at Banksia Station. From **11 – 25 August 2020** the community is invited to provide feedback on the Review of Environmental Factors. Community feedback will help us understand what is important to customers and the community.

Key features of the proposal

- three new lifts to the station platforms
- improvements to the existing underpass
- new kiss and ride area and accessible parking space on Hattersley Street
- upgrades to CCTV, lighting and wayfinding
- modification of the existing station building on Platforms 2 and 3 to provide unisex ambulant toilets and a family accessible toilet
- regrading sections of the platforms
- additional platform canopy coverage along the platforms.

COVID-19 social distancing measures

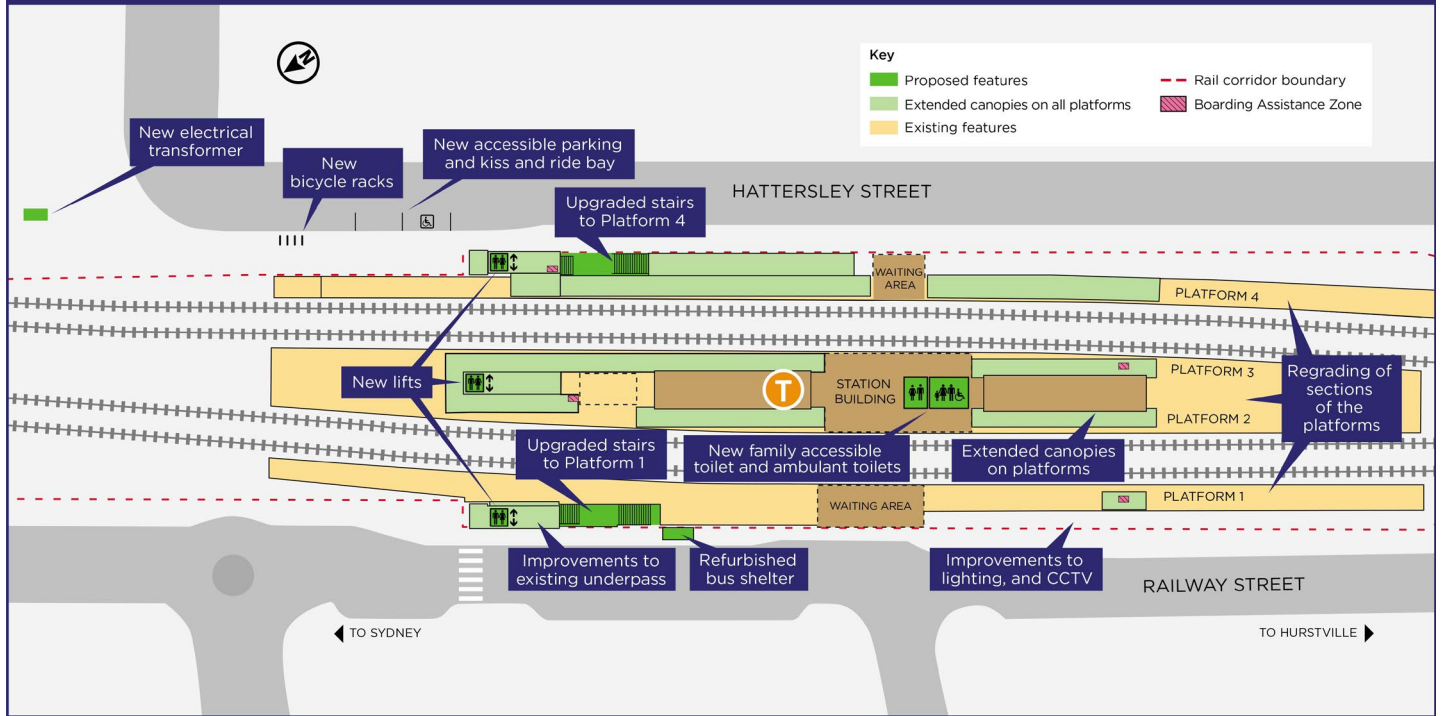

Under normal circumstances Transport for NSW would hold community information sessions at the station. Due to COVID-19 social distancing measures we are available by phone and email and look forward to hearing your questions and feedback that way.

If you have any questions, please call the Project Infoline on **1800 684 490** or email projects@transport.nsw.gov.au

For more information call **1800 684 490**

Key features of Banksia Station Upgrade

Indicative layout of Banksia Station Upgrade, subject to detailed design

Platform canopies

The new canopies on Platforms 2, 3 and 4 will provide better weather protection and encourage customers to use the full length of the platform. This will help reduce train dwell times and improve timetable reliability.

Next steps

Subject to planning approval, construction is expected to commence in late 2020 and take around 18 months to complete.

Transport for NSW develops initial concept design options for the project, including identification and consideration of environmental constraints, risks and opportunities.

We are here

Transport for NSW prepares a Review of Environmental Factors (REF) for public display and invites submissions.

Transport for NSW assesses and responds to feedback and prepares a submission report/determination report with proposed conditions to minimise environmental impacts.

Transport for NSW determines the Proposal.
Conditions of Approval made available on Transport for NSW website.

Construction commences subject to compliance with conditions.

Have your say

The Review of Environmental Factors (REF) is on public display until **Tuesday 25 August**, and community feedback is invited during this time.

To view the REF, please scan the QR code or visit transport.nsw.gov.au/banksia

Feedback can be submitted by:

- emailing projects@transport.nsw.gov.au
- completing the feedback form at www.transport.nsw.gov.au/banksia
- writing to **Transport Access program – Banksia Station Upgrade**
Associate Director, EIA – Transport for NSW Locked Bag 6501,
St Leonards NSW 2065

Your feedback will help Transport for NSW understand what is important to customers and the community.

Review of Environmental Factors

The Review of Environmental Factors (REF) is a planning document outlining the proposed work, potential impacts and mitigation measures.

The document includes comprehensive assessments on the existing environment and potential impacts of the project on the following areas including traffic and transport, biodiversity, heritage, noise and vibration and visual impacts.

Keeping you up to date

We will continue to keep you informed about the project through notifications to customers, local residents and businesses, and frequent updates to the project website.

If you would like to be added to the project distribution list, please email projects@transport.nsw.gov.au and we will email you updates as the project progresses.

Transport Access Program

This project is being delivered as part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
