

Transport Access Program

Birrong Station Upgrade

Project Update

July 2020

Artist's impression of Birrong Station upgrade, subject to detailed design.

Project overview

Transport for NSW is upgrading Birrong Station to make it easier for everyone to access, including people with a disability or limited mobility, parents/carers with prams, and customers with luggage.

The project includes the installation of a new lift and stairs to the station platform from the existing Avalon Street overbridge, a new accessible parking space and improved kiss and ride area on Teresa Street, Improved amenities, including a new unisex ambulant toilet to replace the existing unisex toilet and an upgraded family accessible toilet and improved CCTV, lighting and wayfinding.

The upgrade is expected to take around 18 months to complete.

Upcoming work and site establishment

Site establishment will begin from **Monday 20 July 2020** and will continue until early August.

A new temporary footbridge will also be installed in early August which will result in the existing station access being closed.

Signage will be in place to direct pedestrians to the new temporary entry point which will be located off Hudson Parade next to the Birrong Station commuter car park. More detail about the station entrance will be provided in future notifications.

Other activities in August and September include:

- establishing site arrangements and office set up
- installing temporary fencing around the rail corridor
- survey and investigation work
- installation of electricity poles
- vegetation and ground clearing activities
- relocating services from the existing platform
- lift shaft footings
- platform drainage works.

Equipment to be used during this work includes: surveying equipment, cranes and hand tools.

To ensure the safety of workers and the community, traffic control may be in place. Please follow all instructions from traffic controllers.

Out of hours work: 27 July 2020

Between **12am and 6am on Monday 27 July** (for a period of approximately 2 hours), deliveries of equipment and materials will be made to the station platform from the site laydown area. Fencing will then be installed on the platform using non-powered hand tools.

As the deliveries will occur inside the rail corridor, for the safety of our staff, the work must be completed at night while trains don't operate.

Nearby residents may see workers around the station wearing head torches and using hand held lighting. Noise from a reversing beeper may also be heard during the work.

This work will involve a flatbed truck and non-powered hand tools.

Where possible, measures will be implemented to reduce noise including turning off vehicles when not in use, monitoring noise, using non-tonal reversing beepers and stopping work for respite periods.

Construction hours

Standard construction hours are **7am to 6pm Monday to Friday** and **8am to 1pm on Saturdays**.

For the safety of staff, rail customers and the community, some work will be completed outside standard construction hours. Nearby residents and businesses will be notified before out of hours work takes place.

Keep in touch

We will continue to keep the community informed with regular project notifications and frequent online updates published to the project website www.transport.nsw.gov.au/birrong.

If you would like to be added to the project distribution list, or for more information about the Birrong Station Upgrade, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au.

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.
