

Transport Access Program

Bexley North Station Upgrade

Project update

August 2021

Image: The new concourse and stairs are now open at Bexley North Station.

In line with recent restrictions introduced by the NSW Government on 17 July 2021 to help keep our communities safe, construction activities on Bexley North Station Upgrade were paused until Friday 30 July. We are making arrangements for our work activities to safely recommence from 31 July 2021, as detailed in this notification.

Should these restrictions change based on advice by the NSW Government, which may impact the timing of our work, the community will be notified. We encourage you to subscribe to our project email distribution for the latest information, by calling us on 1800 684 490 or emailing projects@transport.nsw.gov.au.

The safety and wellbeing of our workforce and the wider community is our highest priority. You may see some of our workers on site as they prepare the sites for work to recommence. Please be assured our people and worksites follow NSW Health's COVID-19 requirements and will continue to do so.

For project information call **1800 684 490**,

email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/bexley-north

For urgent enquiries or complaints regarding construction activities, please call 24 hours 1800 775 465

Upcoming work

The Bexley North Station Upgrade is progressing well, with concreting work to level the new concourse and footpath upgrades along Bexley Road carried out in July. Construction activities will continue in August, subject to change due to NSW public health orders and includes:

- installation of cladding, roofing and services on the platform, new concourse and stairs
- footpath upgrades on the western side of Bexley Road, between Shaw Lane and Kingsgrove Avenue
- concreting, asphaltting, paving, landscaping and installation of street furniture in the Kingsgrove Avenue commuter car park
- fit out of the new lift
- delivery of materials and equipment.

Equipment to be used includes trucks, concrete trucks and pumps, excavators, rollers, small mobile cranes, power and hand tools.

Weekend work – 21 to 23 August 2021

Work will be carried out continuously from 2am Saturday 21 August to 7am Monday 23 August 2021 during a scheduled Sydney Trains track work weekend, when the station is closed and no trains are running.

Work will include resurfacing on the platform, removal of hoardings, services work and roofing work. Equipment to be used includes elevated working platforms, excavators, rollers, trucks, power and hand tools.

To facilitate this work, from **Monday 16 to Saturday 28 August 2021** the 90-degree parking spaces on Kingsgrove Avenue, next to the Kingsgrove Avenue Commuter Car Park will be temporarily unavailable to enable delivery of materials and equipment and stockpiling of excavated material from the platform.

Please visit transportnsw.info or call **131 500** for information about replacement buses during this time.

Night work

From **8pm to 7am on weeknights in August**, work to upgrade the western footpath on Bexley Road will continue. This work will be carried out for no more than two consecutive nights per week and is expected to be completed this month. Residences in close proximity of the work will be notified before work takes place.

Footpath and lane closures will be in place to ensure work can be carried out safely. Traffic control and signage will be in place to assist pedestrians and motorists with these changes.

Equipment to be used includes excavators, concrete hammers, delivery trucks, concrete trucks and pumps, lighting towers, power and hand tools.

Kingsgrove Avenue parking and access changes

To create a safe working area for construction of the access ramp and car park upgrades, the following temporary parking and access changes will continue:

- temporary closure of the Kingsgrove Avenue Commuter Car Park **until late 2021**
- temporary closure of up to 20 car parking spaces along the rail corridor boundary fence
- temporary lane width reduction.

Motorists, please allow extra travel time and follow the direction of signage including reduced speed limits while temporary changes are in place.

Station toilets

The existing female toilet in the station building is temporarily closed until late 2021 to enable refurbishment of the station toilets. The former male toilet has been refurbished and will operate as a unisex toilet during this time. Once the project is completed, the station will feature a new family accessible toilet and a unisex ambulant toilet.

Construction hours

Standard construction hours are from 7am to 6pm every day, including public holidays.

We understand extending construction hours to include weekends and public holidays may cause disruption, with all efforts made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

Where weekend and night work is required, measures will be implemented to reduce impacts wherever possible, such as turning off vehicles when not in use, positioning construction equipment as far away from residential areas as possible, using non-tonal reversing beepers, and monitoring noise levels.

Keep in touch

We will continue to keep the community informed with regular project notifications and frequent updates published to the project website transport.nsw.gov.au/bexley-north.

If you would like to be added to the project distribution list, or for more information on the Bexley North Station Upgrade, please contact projects@transport.nsw.gov.au or call the Project Infoline on **1800 684 490**.
