

Transport Access Program

Canley Vale Station Upgrade

Project Update

April 2021

Transport for NSW is improving accessibility at Canley Vale Station. The upgrade will provide a station precinct that is accessible to people with a disability or limited mobility, parents/carers with prams, and customers with luggage.

Upcoming work

Work activities in April include:

- regrading the footpath for a new kiss and ride bay and an accessible parking space on First Avenue
- truck deliveries at the First Avenue and Railway Parade station entries (traffic control will be in place to assist when required)
- ongoing toilet refurbishment
- building an electrical structure and installing a temporary power connection on Railway Parade, adjacent to the station ramp
- installing lift shaft and constructing lift landing adjacent to Railway Parade.

Equipment to be used includes trucks, 60-tonne crane, elevated work platform, grinder, vacuum trucks, excavators, jack hammer, concrete vehicles, line pump, piling rig and hand tools.

Traffic control and signage will be in place to assist pedestrians and motorists around the work area when required. The work activities will be noisy at times. We apologise for the inconvenience and will minimise the impact by turning off vehicles and equipment when not in use, monitoring noise levels, using non-tonal reversing beepers and acoustic barriers.

New kiss and ride bay and accessible parking on First Avenue

From **Tuesday 6 April to Friday 30 April 2021**, work will be undertaken to construct a new kiss and ride area and a new accessible parking space on First Avenue.

This work will involve regrading the footpath, asphaltting, line marking and installing new drainage. During this time, up to eight parking spaces will be temporarily unavailable on First Avenue.

The footpath will be temporarily closed and a detour route will be made available for pedestrians (marked on the map below). Traffic controllers and signage will be in place to direct motorists and pedestrians through the area.

Ongoing access changes at Canley Vale Station

The main entrance to **Platform 1** and **sections of the footpath on Railway Parade** remain closed until mid-2021. Intermittent lane closures and pedestrian detours on Railway Parade will be in place when required. Both Platform 1 and the footbridge can be accessed via the existing alternate station ramp entrance on Railway Parade.

The station bus stop on Railway Parade remains temporarily closed until mid-2021 while station work is carried out. Day time and school service buses have been relocated to stop on Canley Vale Road across from Clifford Avenue. Night bus services (between 12:04am and 5:30am) and rail replacement buses have been relocated to Railway Parade, northeast of the station entry.

Ongoing changes to parking

Two timed parking spaces in front of 43 Canley Vale Road remain temporarily unavailable until mid-2021 for the relocation of a bus stop. During the kiss and ride upgrade work on First Avenue, approximately eight parking spaces will be temporarily unavailable. Alternative parking is available on surrounding streets and in the Council car park located on Fornasier Lane.

Temporary changes to the station toilets

Work has started to upgrade the station toilets on Platform 1 into one family accessible unisex toilet, an ambulant male toilet and an ambulant female toilet. While this work is ongoing, one unisex toilet will be available for all customers to use. Signage will be in place to direct customers to the unisex toilet.

Construction hours

Standard construction hours are **7am to 6pm Monday to Friday** and **8am to 1pm on Saturdays**. For the safety of staff, rail customers and the community, some work will be completed outside standard construction hours. Nearby residents and businesses will be notified before any work outside these hours takes place.

Keep in touch

We will continue to keep you informed with regular project notifications and frequent online updates published to the project website www.transport.nsw.gov.au/canleyvale. If you would like to be added to the project distribution list, or for more information on the Canley Vale Station Upgrade, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au.

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **1800 684 490**. The interpreter will then assist you with translation.
