

# Digital Systems Program

## Sutherland to Cronulla

### COMMUNITY NOTIFICATION

August 2021

Transport for NSW (TfNSW) is rolling out new technology to upgrade Sydney's rail network and introducing modern signalling as part of the Digital Systems Program.

Part of 'More Trains, More Services', the Digital Systems Program will replace current signalling and train control technology with modern, internationally proven, intelligent systems. It will help improve reliability and increase capacity on Sydney's railways once implemented widely across the network.

### Project overview

Initial work will involve installing new track infrastructure along the Cronulla branch of the Illawarra line from Sutherland to Cronulla.

### Night work – Monday 02 August to Friday 06 August

To enable construction work to be undertaken safely and to minimise disruption to passengers and nearby residents, certain activities need to be undertaken at night. The work activity will include cable installation and cable pulling works.

These works will continue from **Monday 02 August to Friday 06 August between 10pm to 4am** each night along the rail corridor at the following locations:

- Woolooware to Cronulla
- Gymea to Miranda
- Sutherland Station

All work will be within the rail corridor only and will not be continuous on all nights. Every effort will be made to keep noisy works to a minimum and to reduce impacts to the community whenever possible.

### What equipment will be used?

Equipment will include light vehicles, trucks, cable winches and lighting towers.

### What you may notice

Transport for NSW is committed to minimising noise impacts on the community. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively.

Please contact Transport Info on **131 500** or visit **[transportnsw.info](https://transportnsw.info)** for information about replacement bus services.

## Map of work area

Map of the site works area, which will be at various locations along the Sutherland to Cronulla rail corridor.

## Keeping the community informed

If you would like to speak with the project team about this work, please contact us through the details provided below. Thank you for your patience and understanding during these important improvements to the rail network.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
