Grafton Station and Stabling Yard

February 2024

Australian Government

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

We are replacing the ageing NSW regional rail fleet of XPT, XPLOER and Endeavour trains.

The new trains will provide new safety features, improved accessibility, facilities and reliability for customers who travel from many NSW regional centres to Sydney, as well as Canberra, Melbourne and Brisbane.

To accommodate the new Regional Rail fleet, we need to modify some existing rail infrastructure at various locations across the rail network.

What work are we doing?

We will be carrying out some investigation work at Grafton Station and Stabling Yard. This will include:

- surveying and laser scanning of the station and rail corridor
- locating utilities including electrical assets and signalling infrastructure
- accessing pits within the rail corridor
- excavation to assess ground conditions and locate utilities.

Equipment and machinery to be used:

- laser scanning and survey equipment
- Vacuum truck
- Excavator

- drilling rig
- crane truck
- electrical testing equipment.

When and where we'll be working

We will be working at Grafton Station, located off Crisp Avenue, during standard construction hours, **7am to 6pm Monday to Friday** between **Tuesday 20 February** and **Tuesday 27 February 2024**.

What will this mean for you?

You may notice:

- workers and vehicles
- noise from investigation activities.

Managing our impacts

We will take steps to reduce noise and impacts on the community and the environment.

This includes and is not limited to:

- using non-tonal reversing beepers
- instructing workers to keep noise to a minimum.

More information

Working closely with the local community is a priority for Transport for NSW. We will keep you up to date about upcoming work, with regular notifications and updates on our website.
