Strathfield Station

March 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

We are delivering a new, state-of-the-art fleet of intercity trains called the **Mariyung**.

The new trains will provide a new level of comfort and convenience for the thousands of customers who travel between Sydney and the Central Coast, Newcastle, the Blue Mountains and the South Coast.

To accommodate the new Mariyung fleet, we need to modify some existing rail infrastructure at various locations across the rail network.

What work are we doing?

Our first stage will involve carrying out some investigation work at Strathfield Station. This will include:

- surveying and laser scanning of the station and rail corridor
- locating utilities including electrical assets and signalling infrastructure
- accessing pits within the rail corridor
- excavation to assess ground conditions and locate utilities.

Equipment and machinery to be used:

- laser scanning and survey equipment
- vacuum truck
- excavator
- crane truck
- electrical testing equipment.

When and where we'll be working

We will be working at Strathfield Station, located at Albert Road, **from 6am to 6pm on Saturday 9 and Sunday 10 March 2024.**

To minimise disruption to the rail network and for the safety of staff and customers, this work will be completed outside of standard construction hours, during scheduled Sydney Trains trackwork.

What will this mean for you?

You may notice:

- workers and vehicles
- noise from investigation activities.

Managing our impacts

We will take steps to reduce noise and impacts on the community and the environment.

This includes and is not limited to:

- using non-tonal reversing beepers
- instructing workers to keep noise to a minimum.

More information

Working closely with the local community is a priority for Transport for NSW. We will keep you up to date about upcoming work, with regular notifications and updates on our website.

If you have questions or would like more information about the Mariyung Fleet, please contact us using the details below.
